IRON LADY · LEADERSHIP ESSENTIALS PROGRAM

LEP Program Journey — User Flow & Reminder Schedule

Version 1.5 · 9 October 2026 · Adds Fast Track, 4 PTW sessions and the Week 2 Progress Check · Reminder flow as in version 1, with CEM / PL notifications, mandatory and optional tasks and program additions · Times are defaults (IST), configurable per batch

1. Summary

The LEP **Program Journey** runs **9 core live sessions plus 5 optional sessions** (Fast Track in Week 1 and a PTW — Prepare to Win — session every Friday in Weeks 1 to 4) over 4½ weeks, from a Thursday Orientation to the Week 4 Graduation. Between sessions, participants complete tasks and practise the 5 Rituals every day. This version keeps the participant reminder flow from version 1 and adds:

- New in 1.5: Fast Track (Week 1 Thursday), PTW every Friday in Weeks 1–4, and the Progress Check moved to Week 2 Wednesday. Optional sessions get a same-day heads-up and a 10-minute reminder only; attendance is recorded but never chased (sections 2, 6 and 7).
- Three mandatory items (VIA Survey, B-HAG in CoDeSeF, Shameless Pitch statement); every other task is optional. Each has a do-by time and a notification after the due time, and no task is ever locked (section 5).
- Notifications for CEM and PL, separate from participant reminders (section 8).
- Roles and access for Participant, CEM, PL and Admin (section 3).
- Pre-program preparation: Participant Information Form, prefilled B-HAG form, Day 2 CoDeSeF download, batch-wise CoDeSeF sheet (section 9).
- Daily rituals in the LMS with an automatic weekly score every Saturday (section 10), and a quiz placeholder (section 11).
- Configurable session times, participant statuses and the status-based home page; anything not done shows in red.

2. Session calendar (configurable)

S8	Graduation (Certification)	Core	Week 4	Sat (Day +28)	7:30 PM–8:30 PM

New in 1.5: Fast Track (Week 1 Thursday), PTW every Friday in Weeks 1–4, and the Progress Check in Week 2 (Wednesday by default; Friday can be chosen per batch). Times for Fast Track and PTW are proposed defaults — confirm with PL (section 13). Optional sessions never affect status or certification.

Session times are not fixed in the system. For each batch, CEM, PL or Admin sets Day 1 (the Week 0 Saturday) and can change any session's day, start time, end time and join link. All reminders and due dates are calculated from these, so a rescheduled session moves its reminders automatically.

3. Roles and access

Role	Who	What they do in the Program Journey
Participant	Enrolled LEP learner	Attends sessions, submits tasks, updates daily rituals, sees own score and status.
CEM	Customer Experience Manager for the batch	Edits session dates, times and join links and the batch's tasks; reviews submitted tasks (and the PL-owned ones when asked); records attendance; follows up on anything not done; sends poster template and nudges.
PL	Program Lead (title to confirm)	Owns the program template: approves task rules and messages, reviews brand statement and graduation journey (CEM can review when asked), approves certification.
Admin	Tech / operations	Creates batches and users, assigns roles, runs integrations (Zoom, WhatsApp, Zoho CRM), generates certificates.

4. User flow

Main path top to bottom. Red boxes fire only when something is not done. Mandatory items are in bold dark teal.

Participant status and home page

Active — needs attention	VIA Survey, B-HAG in CoDeSeF or Shameless Pitch statement overdue, or a session missed	Same as Active, plus a red panel listing overdue items with original due dates	Catch up now

Completed — certificate pending	Any of the 3 mandatory items still pending	Pending items with grace deadline · CEM contact	Complete pending items

5. Tasks — mandatory and optional, with do-by times

Only three items are mandatory: VIA Survey, B-HAG in CoDeSeF (the B-HAG form plus completing CoDeSeF up to the B-HAG), and the Shameless Pitch statement. **Everything else is optional.**

No task is locked. A pending mandatory item never stops a participant from opening or completing any other task; all tasks stay available in any order.

Reminders: every task gets a reminder on the due day at 10:00 AM and one reminder the next day if not done. Only **mandatory** items then alert the CEM after 2 days, show in red and set the status to "Needs attention". **Optional** tasks never escalate and never show red. Tasks can be edited per batch by CEM, PL or Admin (add a task, change a due date, extend a deadline).

9. Pre-program preparation and CoDeSeF

- **Enrollment (Day 1–2):** LMS and app login credentials are shared. VIA Survey (mandatory), B-HAG (mandatory) and the Participant Information Form (optional) all open on enrollment and are due Wednesday 8:00 PM, the day before Orientation.
- **B-HAG form (mandatory):** opens on enrollment with name, email and phone already filled; the participant writes only the B-HAG. Due Wednesday 8:00 PM, so it can be discussed at Orientation on Thursday.
- **Day 2 CoDeSeF sheet (optional download):** generated at the end of Day 2 with the participant's B-HAG already printed; downloaded from the home page.
- **Batch-wise CoDeSeF sheet:** one row per participant with B-HAG text, the 3 mandatory items as Done / Not done (red), and optional tasks shown for information only (never red). Visible and exportable only by PL, CEM and Admin.

10. Daily rituals and weekly scoreboard

- **Daily check-in in the LMS and app:** participant ticks each of the 5 Rituals. 7:00 AM nudge; 8:30 PM nudge only if today is not updated.
- **Back-fill:** missed days of the current week can be updated until Saturday 11:59 AM.
- **Weekly score every Saturday, Weeks 1–4:** published at 12:00 PM on the app progress dashboard and sent as a WhatsApp message. Score = rituals done ÷ (5 × days).
- **Dashboard:** this week's grid (missed days in red), Weeks 1–4 scores, streak, batch average.
- **Staff:** CEM alert after 3 days not updated; Saturday 12:30 PM batch summary to CEM and PL.

11. Quiz or assessment

To finalise with Arshi. Proposed slots: after Day 2 (Week 1 Monday), after Differentiated Brand (Week 1 Sunday), and a final assessment due Week 4 Friday 9:00 PM. Whether it counts for certification is open.

12. Things to think through

1. **Data signals.** Conditional reminders and red status need form submissions, LMS task status, payment (Zoho CRM), Zoom attendance and ritual check-ins.
2. **Late joiners.** Recording, pre-work and only the reminders still ahead.
3. **WhatsApp templates.** Every WhatsApp message needs a pre-approved WATI template.
4. **Participants outside India.** Show local time in the app; keep "IST" in messages.
5. **Graduation criteria.** The 3 mandatory items, plus any attendance rule; optional tasks, ritual score and quiz do not block certification unless PL decides otherwise.
6. **Measurement.** Open rate per reminder, task completion, attendance and weekly ritual scores per batch.
